PATIENT SUFFERER GONE.

Mrs. Ella Watson Died at Her Home on First Street Yesterday.

Mrs. Ella Watson, a respected lady of Reynoldsville, died at her home on First street at 12.22 a. m. Tuesday, September 14, 1909. Her death was caused by cancer. November 6, of last year, Mrs. Watson had to undergo a critical operation in the Grube Hospital in Punksutawney. At that time the operating surgeon said the trouble was tuberculous ulceration, but later it developed into cancer. For five months Mrs. Watson's suffering was intense, but she was very patient. For perhaps five years before the operation Mrs. Watson suffered considerable, but few people ever heard her complain.

Ella DeHart was born October 17, 1867, and would have been 42 years old next month. Over twenty years ago she was united in marriage to Elmer Watson, who died fourteen years ago leaving her with three small children. She bravely supported and cared for her children, although the burden was heavy sometimes, especially after her health began failing five or six years ago. She was a loving and kind mother, a hard worker and a good christian woman. Her three children, Howard F., Mary F. and Gertrude E. Watson, survive their mother.

Mrs. Watson united with the Presbyterian church a number of years ago and was a consistent member of the church.

Funeral service will be held at the family residence at 2.00 p. m. today, conducted by Rev. A. D. McKay. Interment will be made in Beulah cemetery beside the husband.

A college education is all right, provided you get the education. The trouble about it is that so many yokels fake their way through the colleges, and then try to put up the bluff of having a college education. The fellow who really gets a college education must necessarily be greatly benefited. It is the fellow who has gone through without getting an education, and who foun-flushes with a diploma he should never have been given, that discredits the colleges.—Punksutawney Spirit.

One of the best signs of the times is the renewal of the demand for building materials over the country, showing reawakened confidence in future prosperity. During the past few weeks the Reynoldsville Brick and Tile Company has received more orders for building brick than they have been able to fill and large consignments have been shipped over the railroad taken from their previous stock. This company is making a specialty of the new "velvet face" building brick and it seems to have struck the popular fancy.

On account of the late improvements the car is easily controlled.

Talking Municipal Building.

By referring to report of town council, published elsewhere in this issue, it will be seen that our borough "dads" are thinking of buying a lot and erecting a municipal building. We believe this is the right thing to do. The borough is now paying rent enough to pay fair interest on the money thus expended and the borough property would all be in one building. Now it is scattered. The building will not likely be erected until next year.

A Word to Subscribers.

A number of our subscribers are, apparently, forgetting that it takes money to run a newspaper, as they are neglecting to pay their subscriptions. A dollar from a subscriber may seem insignificant when standing alone, but one each from several hundred subscribers means so many hundred dollars to us. Every business is dependent upon its income, no matter from what source nor in what amount from each source. Without the expense and labor of again mailing notices to all our subscribers who are in arrears, we hope this notice will be sufficient and that each one will pay all or part of their arrearage this month.
